## Next Generation of Depository

smartAHD (After-Hours Depository) is a revolutionary product bringing advanced functionality to legacy and new depository transactions. smartAHD turns traditional depository systems into keyless, receipt-giving smart depositories with the ability to provide same day provisional credit to any institution's customer base.

### Features & Benefits

- Reduces attrition and attracts new, more profitable clients
- Cost-effective and scalable
- Supports multiple means of deposit drops
- Plug & Play functionality from first day of operation
- Customer branding and API integrations available now
- Works with all new and most legacy/existing depositories
